

Genesis 11

**“They used brick instead of
stone...”**

**“...so that we may make a
name for ourselves...”**

Psalm 20v7

**It isn't just what they do to the brick,
it's what the brick does to them**

Roger Gottlieb: In 2005 a study of the umbilical cord blood of ten randomly chosen newborns in the United States was tested for toxic chemicals.

A total of 287 [toxic chemicals] were found, with the average for each individual infant being 200.

Nearly three-quarters of the chemicals were known carcinogens, and the rest were identified as threatening the nervous, endocrine, and immune systems

Matthew 6

800 million
1200 miles

**2 days=1590lbs of carbon
dioxide emissions**
